

Ananya Krishnan

Coimbatore, Tamil Nadu, India | +91 98765 43210 | ananya.krishnan.ds@gmail.com | linkedin.com/in/ananyakrishnan-ds

PROFESSIONAL SUMMARY

Data Scientist with 4+ years of experience building machine learning models for demand forecasting, customer segmentation, and NLP-based text classification. Skilled in translating business problems into statistical models and deploying them into production pipelines using Python and cloud platforms.

SKILLS

Python	SQL	R
Scikit-learn	TensorFlow	PyTorch
Pandas / NumPy	Feature Engineering	A/B Testing
Tableau	Power BI	AWS SageMaker
Natural Language Processing	Time Series Forecasting	Git

WORK EXPERIENCE

Data Scientist — Veridian Analytics Pvt Ltd

Bengaluru, India | Jul 2022 – Present

- Built a demand-forecasting model using XGBoost that reduced inventory holding costs by 18% across 12 warehouses.
- Developed an NLP pipeline to classify customer support tickets into 9 categories, cutting manual triage time by 40%.
- Partnered with product teams to design and analyze A/B tests, informing 6 major feature launches.
- Mentored 2 junior analysts on statistical modeling and reproducible research practices.

Data Analyst — Northbridge Consulting

Chennai, India | Jun 2020 – Jun 2022

- Automated weekly reporting workflows in Python, saving roughly 10 analyst-hours per week.
- Built customer segmentation models that improved targeted marketing conversion by 12%.
- Created interactive Tableau dashboards used by leadership for quarterly business reviews.

PROJECTS

Churn Prediction Engine (Personal Project)

- Designed an end-to-end churn prediction pipeline using scikit-learn and deployed it via Flask on AWS EC2.
- Achieved 0.87 ROC-AUC on a telecom churn dataset using gradient boosting and SMOTE for class balancing.

EDUCATION

M.Sc. in Data Science

PSG College of Technology, Coimbatore | 2018 – 2020

B.Sc. in Statistics

Bharathiar University, Coimbatore | 2015 – 2018

CERTIFICATIONS

- AWS Certified Machine Learning – Specialty (2023)
- Deep Learning Specialization, Coursera (2021)
