PROFESSIONAL SUMMARY

Cloud and DevOps Engineer with 6 years of experience designing scalable infrastructure, automating deployment pipelines, and improving system reliability across AWS and Azure environments. Passionate about Infrastructure as Code and reducing operational toil.

SKILLS

AWS (EC2, S3, Lambda, EKS)	Azure	Terraform
Kubernetes	Docker	Ansible
Jenkins	GitHub Actions	Prometheus / Grafana
Linux Administration	Bash / Python Scripting	Networking & Security
ELK Stack	CI/CD Pipelines	Site Reliability Engineering

WORK EXPERIENCE

Senior DevOps Engineer — Cirrus Cloud Systems

Bengaluru, India | Jan 2022 – Present

- Migrated on-premise infrastructure to AWS using Terraform, reducing infra provisioning time by 70%.
- Implemented Kubernetes-based microservices architecture supporting 200+ deployments per month.
- Built monitoring and alerting with Prometheus and Grafana, reducing mean time to detect incidents by 50%.
- Designed disaster recovery procedures that reduced potential downtime from 4 hours to under 20 minutes.

DevOps Engineer — Wavecrest Infotech

Kochi, India | Jun 2019 – Dec 2021

- Automated CI/CD pipelines with Jenkins for 15+ microservices, cutting release cycle time by 60%.
- Managed containerized deployments with Docker and Kubernetes across staging and production.
- Implemented centralized logging using the ELK stack, improving root-cause analysis speed.

EDUCATION

B.Tech in Information Technology

Cochin University of Science and Technology | 2015 – 2019

CERTIFICATIONS

- AWS Certified Solutions Architect – Professional (2023)
- Certified Kubernetes Administrator (CKA), 2022
- HashiCorp Certified: Terraform Associate (2021)
